FCA offers a way to enhance your home educating experience through hands-on, interactive enrichment classes and social interaction with other students and families in a Christian environment. Fine Arts Friday is based on the premise that while home educators may be the best teachers for their children, benefits can be gained through additional resources coming from outside the home. Students may sign up for one, two, or a full day of classes. Please call (615) 860-3000 ext. 202 for complete details. Schedule subject to change without notice.
