ONLINE ACADEMY: 3RD - 12TH GRADE

Home educating families in the 21st century now have the benefit of online education. FCA provides a complete Online Academy for 3rd - 12th grade students.

Family Christian Academy provides everything you need to give your child a quality Christian education online! This program is innovative, interactive and individualized. It provides your student with a state-of-the-art, multimedia-rich, interactive learning experience.

To meet the needs of each individual, we have to meet them where they are, which requires flexibility and structure. FCA Online provides both!

Within the curriculum, there is a structured flow and focus, but there is also plenty of room for individualization.

To begin this program, students are given a placement test. Courses are highly individualized and tailored to the student's needs. Advance Placement courses are available.

FCA's Online students receive daily assignments from their online teacher. After mastering assignments, students are tested on the material.

Most lessons, quizzes and tests are graded automatically, and an online teacher responds to all requests for help with grades, essays and reports. Response time is usually 24 hours or less.

A help button is available for every question, and students can get help from one of our expert teachers. Parents simply check the student's online home page to determine if lessons have been completed and to view grades and progress.

With FCA's Online Academy, you and your student will receive ongoing support. More importantly, we will provide your student with a Christ-centered, college-prep education.
