

## EXTRA CURRICULAR ACTIVITIES

Extra curricular activities play an important role in the overall education experience. Whether it's Fine Arts Friday, field trips, or the Athletic programs, FCA has something to offer for the whole family. Enrichment activities serve to aid students in developing spiritual, social, and physical abilities. FCA students are encouraged to enrich their academic journey by participating in the variety of activities.

FCA offers a variety of field trips throughout the school year. Our field trips focus on learning, building relationships and having fun! Most field trips are coordinated for the entire family to enjoy; however some may be geared more towards an older or younger age-appropriate level. FCA notifies its member families of upcoming field trips and Athletic Events through the E-Newsletter. Remember to visit our website for current information.

- GOLF

FCA offers many programs and activities that allow students the opportunity to form and develop character traits of honesty, loyalty, integrity, patriotism, perseverance, commitment, and concern for others.

The athletic program is one of these opportunities. A goal of the athletic program is to teach athletes the importance of unity and unselfish team play. The knowledge that the participants have done their best and played with a pure heart is the foundation of a solid Christian athletic program.

Although many of the extra-curricular activities at FCA are of a competitive nature, great emphasis is placed upon Christian interaction, being a positive witness for Christ, good sportsmanship, respect for rules, authority and other competitors and putting forth the "best effort" rather than upon "winning at any cost." Our prayer is for our athletic program to continue and bring honor to the Lord.
