615-847-3999**

## WHAT TO BRING

2- #2 Pencils

Scrap Paper

A ruler with inches & centimeters

Calculator (4th & up)

Nutritious Snack

## WHAT TO EXPECT THE DAY OF THE TEST

Our testing policies are in effect to ensure a proper, fair and safe testing environment. Please help us maintain these policies so our students can have a good testing experience.

Students must test in the grade in which they are enrolled.

Parents are able to be in the room with K-2nd grade students testing.

Testing begins promptly each morning. Parents and students are asked to arrive 30 minutes early on the first morning to receive a brief orientation and classroom assignments.

Testing last for approximately 4 hours, for 2 consecutive days. Schedule varies by site, watch for details on your site location by web or mail.

Students should eat a good breakfast and come to test well rested.

Bring scratch paper, at least 2 sharpened #2 pencils, a ruler (with inches and centimeters) and a calculator for 4th grade and above. Parents are also encouraged to bring juice, fruit or any other nutritious snack.

FCA uses facilities graciously donated to us. Please take care of the property and be sure to stay within designated areas. Students are allowed in testing rooms, break rooms and bathrooms only. Please realize we are all witnesses as home-educators. Instruct your children to obey all rules and teachers or they will be expelled from testing (and, possibly from FCA). Parents must be able to supervise their children not being tested and students finishing early.

No student will be permitted to leave the premises before testing is over.

## TESTING REQUIREMENTS & RECOMMENDATIONS

Students home educating with FCA are not required to take the SAT test. However, in order to graduate with an FCA approved diploma, students must meet the FCA credit requirements and obtain a qualifying score from one of the following tests during the 11th or 12th grade.

High school Stanford Achievement Test - minimum stanine score of 4,

College entrance ACT - minimum score of 20,

College entrance SAT- minimum score of 500 verbal/500 math.

FCA recommends that students be tested at least one year in the elementary level (3rd), middle school level (6th) and every year in high school (9th-12th), unless your student is scheduled to take a college entrance exam. Letting your student have a testing experience periodically allows parents to monitor progress and keeps students practiced in the skill of taking tests. Testing is recommended every year for students that are on a college path and/or plan to return to the school system.
